

FAMILY #6

(Information updated July 2024)

These are not descendants of Family #1

There were several other families who assumed the Gurulé surname, sometimes because they worked for the family, or for other unknown reasons.

These are the descendants of Jose Elias Gurulé who was married twice. The prenuptial marriage investigation for his first marriage to Barbara Febronia Montano (NM Roots Ltd, by Fray Angelico Chavez) shows that he was a mestizo of unknown parents. His second marriage to Maria Catarina Medina also reflects the same information. Some people feel he may have been a son of Bernardina who was a servant in the household of Antonio Gurulé and Antonia Quintana. It appears that Jose Elias Gurulé only fathered one child, and no other records have been found. Below is their son Juan Cristoval in the 1790 census:

1790 – NM, Bernalillo County, location: Albuquerque, Plaza #7

Juan Cristoval Gurulé (mestizo, 1765, age 25, farmer), Maria Ygnacia Martin (mestiza, 1769, age 21), her widowed mother (mestiza, 1750, age 40), one niece (mestiza, 1780, age 10)

Note → each generation is indented...thus Juan Antonio Gurulé and his first wife, Juana Toribia Carrillo, are parents of all children with #3 by their name, etc.
