

FAMILY #9

(Information updated July 2024)

These are not descendants of Family #1

There were several other families who assumed the Gurulé surname, sometimes because they worked for the family, or for other unknown reasons.

These are the descendants of Diego Gurulé who was married to Teresa de Jesus Gutierrez. Though they married in 1775 at the church at Sandia Pueblo, it appears they relocated as the 1790 census shows them living at the pueblo in Isleta.

Note → each generation is indented...thus Diego and Maria Teresa are parents of all children with #1 by their name. Then, for example, their daughter Maria Gertrudis Gurulé and her husband Julian Barreras are parents of all children with #2 by their name, and so on....
